

# Woodrow Wilson Teaching Fellowship

**Have a passion for science, technology, engineering or math? Ever consider a career in teaching?**

*We can help.*

The Woodrow Wilson Teaching Fellowship recruits the nation's best and brightest recent college graduates and career changers in STEM fields (science, technology, engineering, or math) with generous financial support to complete an intensive yearlong master's degree program in teaching at one of Woodrow Wilson's partner universities in Georgia or New Jersey.

## **How the Fellowship works:**

- Fellows are admitted into a master's degree program at a well-established partner university.
- Each Fellow receives a stipend of \$30,000. Once Fellows are certified teachers at the end of the first year, they obtain salaried employment in high-need schools.
- Fellows complete a field-based master's degree program in teacher education, as well as obtain teacher certification in one of the STEM fields.
- All Fellows spend one full school year in extensive preparation for teaching in a high-need urban or rural secondary school prior to becoming the teacher-of-record.
- Fellows commit to teaching for at least three years in a high-need school.
- Fellows receive intensive support and mentoring throughout the three-year teaching commitment.
- Fellows become lifelong members in a national network of Woodrow Wilson Fellows.

## Partner universities in New Jersey:

- Montclair State University, Montclair, NJ
- Rowan University, Glassboro, NJ
- Rutgers University, Camden, NJ
- William Paterson University, Paterson, NJ

## Partner universities in Georgia:

- Columbus State University, Columbus, GA
- Georgia State University, Atlanta, GA
- Kennesaw State University, Kennesaw, GA
- Mercer University, Macon, GA
- Piedmont College, Demorest, GA

First 2017 **Deadline** is October 23, 2016. Apply early! Subsequent deadlines are November 29 and January 23, 2017.

Twitter: @WoodrowWilsonTF

Your application to the Woodrow Wilson Teaching Fellowship doubles as an application to a master's program at one of our partner institutions. There is no fee to apply.

While Fellows are notified of their acceptance within two months of each deadline date, all new Fellows (regardless of acceptance date) will begin the Fellowship program in summer 2017.

### **Desired Skills & Experience**

Competitive candidates will:

- Have majored in and/or have a strong professional background in a STEM field.
- Have completed an undergraduate degree in a STEM field by June 30, 2017 (or its international equivalent).
- Graduated with a 3.0 GPA or higher on a 4.0 scale.
- Have U.S. citizenship or permanent residency.
- Demonstrate a commitment to the program and its goals.
