

# Mechanical Engineer

**Position Type:** Full time

**Employer:** Zymo Research Corp

**Contact:** Angela Kim, attn.: Elinne Becket

**Title:** Research Associate

**Job Function:** Research, Scientific

**Resume Receipt:** E-mail, Accumulate Online

**Default email for resumes.:** [jobs@zymoresearch.com](mailto:jobs@zymoresearch.com)

## **Summary/Contribution of Position**

The ideal candidate should be inquisitive, proactive, and have ability to work closely with chemists and biologists on new device design, formulation, and manufacture. A successful applicant should be a team player with willingness to participate, communicate, and contribute to the collaborative success of group projects.

## **Essential Duties and Responsibilities**

1. Research & Development
  - o Evaluate various technologies for product development
  - o Develop new technologies and update/improve existing
  - o Preparation of prototype devices
  - o Maintain a detailed notebook
2. Quality Control
3. Technical Support

## **Education and Experience**

Qualified applicants must have:

1. An MS or BS in mechanical engineering where additional experience in biology is an asset but not a requirement.
2. Excellent communication skills, both verbal and written, are absolutely required.
3. Knowledge of Microsoft Office products is required.

Salary is competitive and commensurate on experience. Additionally, we offer a generous bonus plan and a complete medical/dental and vision package.
