MEDLIFE DEVELOPMENT CORPS

Development Corps is a week-long Service Learning Trip that allows students interested in architecture, engineering, and community development to work hand in hand with local professionals and community members on the creation, planning, and execution of a development project.

May 18-26, 2019
Lima, Peru

Why Lima?
- Visits to the communities where MEDLIFE works outside of Lima, Peru.
- Evening meetings with the locals to listen to their basic human needs.
- Live brainstorming on future project ideas.
- Dynamic workshops on the planning and designing of MEDLIFE projects.
- Talks focused on the management of projects.
- Strategies to provide solutions to social problems in the areas where MEDLIFE works.
- Hands on construction of the project side by side with locals.
- Interaction and learning led by local professional architects and engineers.
- Inauguration of the project to celebrate a week of hard work.

Goals of the Week
- Understand the realities of extreme poverty first hand.
- Personally connect with the communities that MEDLIFE supports.
- Ignite action in you to join the Movement fighting for a world free from the constraints of poverty.

Possible Projects
- URBAN DESIGN
- STAIRS
- RETAINING WALLS
- WATER PROJECTS
- HYGIENE PROJECTS
