Job Description:

We are looking to hire 1-2 undergraduate research assistant(s) for a maximum of 9.5 hours per week for Spring Quarter and potential full-time work for summer. Hourly wage will range from \$10-14 based on qualifications. This study focuses on the effects of urban form and traffic management strategies on pedestrian exposure to air pollution. Research assistants will be asked to analyze and code video footage of traffic flows as well as meteorology, meta-built environment variables, and air pollution data. Strong candidates should exhibit interest in transportation and environmental planning. Qualifications include detail oriented, organizational skills, past data entry experience, proficiency in Excel and Google Maps/Earth. The ability to think critically about research design and experience conducting quantitative and qualitative analyses are also highly valued.

To apply for this position, please email a cover letter, resume, and two reference letters to the contact above.

The application is due at 5PM on April 1st 2013.\* Interviews will be conducted during Week 1 of Spring quarter.
