Job Description:

About Us

NBCUniversal is one of the world's leading media and entertainment companies. We develop, produce and market entertainment, news and information to a global market. NBCUniversal owns and operates a valuable portfolio of news and entertainment networks, a premier motion picture company, significant television production operations, a leading television stations group, and world-renowned theme parks.

Operations & Technical Services (O&TS) supports NBCU's portfolio of broadcast, cable, and film businesses. O&TS is one of the few NBCUniversal organizations that touch every part of the business. Focused on client service, O&TS delivers high quality business services, optimization of production assets, and technical pioneering and business automation. Currently, O&TS is looking for qualified candidates to participate in the NexTech Program starting summer of 2013 in Los Angeles.

What is NexTech?

A hands-on **two year technology program**. NexTech offers the **flexibility** of working within one primary technical organization of the Operations & Technical Services division while learning multiple aspects of media technology

A rotational experience. During your two years, you will rotate throughout the primary organization...building your skills and technical aptitude while still learning about different parts of the business.

A **Technical Certification Program** that promotes and develops technical depth as well as **Mentorship** and **Networking** opportunities to help you jump start your career.

Opportunities:

NexTech Opportunities at NBCUniversal may include (but are not limited to):

- **News Field & Production Operations:** newsgathering, field engineering, satellite operations, editing, media management, archives
- **West Coast Technical Operations:** post production, mastering & fulfillment, vault services, engineering, transmission
- **Information Technology:** infrastructure, network, corporate systems

Basic Qualifications

- Bachelor's degree in Engineering, Computer Science, Information Technology, or related field
- Or, Associates degree with additional relevant experience
- Cumulative GPA of 3.0 or above
- Previous internship experience

Desired Qualifications

- Passionate about staying current with technology changes
- Strong interpersonal skills; must be able to work effectively as part of a project / program team and foster team cooperation
- Strong analytical and problem-solving skills
- Previous work experience in an office environment
- Previous media industry experience is a plus
